

FEELS HE'S MAN WALKING LIKE BEAR

Writer Finds "Furthest Dress Property For Russian Winter"

Here is the fourth and last dispatch by A. T. Steele on his visit to Russian camps for war prisoners—EDITOR.

By A. T. STEELE

COPYRIGHT, 1942, by the Chicago Daily News and the Edmonton Bulletin.

MOSCOW, Feb. 18.—Travel in mid-winter has its aches and pains but it can also be full of unique experiences and eye-opening surprises. Back in Moscow from a trip by train, automobile and sled to a prisoner-of-war camp deep in the interior, I feel more than ever the hopelessness of ever probing deeper or of understanding fully the inner complexities and mysteries of this sprawling Eurasian land. Yet every day of travel reveals a tiny bit more of the vast and complex picture.

Farmer Faces Murder Count: Police Probe

Continued from Page One

buried the body in a nearby field later that night and also that he had allegedly brutally threatened his family with violence if they failed to reveal the crime.

DeVitt, prior to the murder, had also been in trouble with the law. He was convicted of carrying firearms and assaulting one of Bennett's sons, for which he was sentenced to serve three months in jail. A notice of appeal was however, was granted. DeVitt was released on bail. He was alleged to appear before the sitting of the district court at Red Deer, but never showed up, and he was much wanted for a further method as practical or as cheap for the few feet of land.

All efforts to locate the man however, failed, and he has been missing until this week when his alleged murder was reported.

Born in Holland, DeVitt came to Canada in 1921 and resided near Bennett's farm. He married Florence Bennett in 1934 and four months later she died from a bullet wound that she said in a signed statement was self-inflicted when she fell when going to shoot a duck on the creek. At the time DeVitt was charged with an charge of having committed a neighbor with an axe.

Bennett is alleged to have claimed for years that DeVitt was too friendly with Mrs. Bennett, and some time after the death of Mrs. DeVitt the men had a violent quarrel and DeVitt was charged with hitting Bennett with an axe. He was given a short jail term.

DeVitt had no relatives in Canada, on his release he returned to his farm and the charges were dropped. He has been in the area since he came to Canada in 1921. In 1938 DeVitt business men in town that he would come in a few days to settle his affairs then to east heading. He went back to his farm and was never seen again. When questioned the Bennett are reported to have said that DeVitt was in the bush or that he had gone away.

DIG FOR BODY

The district has had many rumors about DeVitt's sudden disappearance and when several new stories were told recently the police investigated and are asking for orders to dig for the body.

Bennett was born in Kentucky and after his military service for some years in Dakota came to Canada in 1911. He lived on same farm since. He has three sons, one and six sons, two of whom are in the Canadian army.

Prospects Poor South American Rubber Tonnage

RIO DE JANEIRO, Feb. 18.—(AP)—Export estimates Wednesday it would take until 1945 for the equivalent of one million tons of rubber to produce annually requirements of the United States. The long forecast of one million tons to the maximum possible within the next two years is regarded as making available for export possibly 30,000 tons in 1942 against current possibilities of 20,000 tons.

Weather

THE WEATHER

Highest temperature during the 24-hour period ending at 8 p.m. Feb. 18, 40° below.

Lowest temperature during the same time 11° above.

Unity of Races in Dominion Is Essential Need

Continued from Page One

of my humble capacity always to the preservation of the national soul of the other's virtues," he said. "For I have seen, as every Canadian must see, that the marriage of the true minds of English and French Canada is indissoluble and perpetual."

"I have felt," he said, "that Canada will find its true unity and the fulcrum of its splendor on the day when we take pride in the fact that we are a bilingual nation, the inheritance of two languages and two cultures is a strength, not a weakness."

Mr. Brockington said that Canada was not yet a true unity, but "one country in deadly peril."

FIGHTING FOR MARKED

"We are not fighting for Britain. We are fighting for ourselves and for mankind's future of the future of our children and humanity's power of happiness," he said.

"From the very beginning we have seen the issue and it is fair, more clearly than the Prime Minister's last (Feb. 18) (Mr. N. H. Macdonald) said. We are fighting not for Britain, but for the future of our children and humanity's power of happiness," he said.

"I had today a country's greatness is measured by the unity with which it stands and the threat to meet the onset of evil that would plunge us into the anarchy of civil war."

MacPhail Signs Doggers Up Fast Before Plane Hop

MIAMI, Fla. Feb. 18—(AP)—

Bustling Larry MacPhail came to terms with five Brooklyn bachelors in a whirlwind series of conferences Wednesday, then packed them off with the rest of the Havana training camp.

MacPhail behind were three holdouts—pitches Walker and outfielder John Kraus. None of the three showed up at Miami to talk to MacPhail, the club president.

Another sign behind was pitcher John Hogue, who balked at the last moment. Club officials said he wanted to take his wife along, but Hogue's only comment was "I just don't like the place and MacPhail here."

WIVES STAY BEHIND
Players' wives were not asked to make the trip because the limited space was available for the aerial jump.

Asked when he would join his teammates, Hogue said: "I don't know. There's no thinking about that now."

Lingering at his home in Birmingham, Walker said he "didn't want to talk to MacPhail about his contract—no discussion."

Walker was surprised to hear MacPhail had claimed him as a holdout. "I sent MacPhail a telegram this morning," he said, "saying that I may hear from him any minute telling me to come on down. I don't know if he's doing it."

MacPhail indicated that he expects a salary difficulty with Walker, but he is not sure.

MacPhail said he is not sure if he is the hardest to settle. The player was reported to ask \$300,000 a year.

MacPhail declared that he was his first big season, and he can't expect to jump over the heads of players who have been there a long time.

Hitler Is Crack-Pot: Also Punk Soldier

NEW YORK, Feb. 19.—(AP)—Benny Nussbaum, New York paperhanger, knew Adolf Hitler when Hitler was known as plain Schickelgruber, the paperhanger.

They were members, he said, of the same paperhangers' union in Germany.

"He was not only a crack-pot," said Nussbaum Wednesday, "but he couldn't put paper up straight. His work was terrible. With one arm I could do a better job than that guy. No wonder he gave it up."

"PUNK SOLDIER"

"He was a punk soldier, too. We both were private. I rose to the rank of sergeant. He never got higher than corporal."

Nussbaum, who arrived in the United States 19 years ago, now is a senior air raid warden in Queens. He has a memento from Hitler—a medal sent to him by mail in 1933, awarded "in the name of the Reich" and "in recognition of the German people for conspicuous bravery and service to the fatherland in the last war."

There must have been some mistake about the medal, Nussbaum said, since he is Jewish and he didn't think the Nazis were passing out medals to Jewish soldiers.

Greetings From Free France To Canadians Read

OTTAWA, Feb. 18.—(CP)—

Greetings from Free France to Canada were read Wednesday by E. W. Brockington, K.C., former agrarian minister, assistant to Prime Minister King, in a Canadian Club address.

Mr. Brockington read this message from Gen. Charles de Gaulle, head of the Free French forces:

"Free France sends Canada her brotherly greetings. And she does this first of all because her soldiers, her sailors and her airmen fight and die in the four quarters of the earth by the side of their Canadian comrades and in the same cause."

"She does it also because she is that France so many of whose memories live in Canada. For Free France is that nation which refuses to surrender and which, faithful to all her traditions, continues the fight to the end with the help of God."

Soviet Troops Penetrate In White Russia

BY EDDY GILLES

MOSCOW, Feb. 18.—(AP)—Russian troops by-passing Smolensk to the north have penetrated into White Russia. Red army dispatches announced Tuesday that the most widespread reports of advance specifically mentioned some 50 miles short of the White Russian border.

The dispatches reported the capture of Kresty, in the Velich district. Velich lies less than 70 miles northwest of Smolensk and 20 miles east of the frontier of White Russia.

The Soviet information bureau told how, in one critical front sector, Russian troops, after beating off several fierce German attacks, seized the offensive and recaptured two villages from the enemy, who left 200 dead on the field.

BATTALIONS DISPERSED

A Soviet artillery battery was reported by the Communist press to have fired seven of 14 counter-attacking German tanks and destroyed and annihilated two battalions of German paratroopers, and to have cleared the way for a Red army infantry advance on a southern sector.

"Dozens of bodies of German soldiers littered the snow," it said. "They said reinforcements were progressing in the eastern part of the Donets Basin and several thousand tons of coal already had been shipped from re-opened mines."

The Soviet information bureau reported that "incomplete data" on two week-old operations by paratroopers behind the German lines in the Lemniged sector showed 45 Nazi officers and 650 soldiers killed, 91 supply-laden trucks destroyed, 15 bridges dynamited and a number of ammunition dumps damaged.

R.A.F. Planes Hit At French Coast

LONDON, Feb. 18.—(CP)—A strong force of British planes, flying at a high altitude, swept eastward across the English Channel this morning, and a short time later heavy explosions were heard from the French coast.

The forty-fifth mine-laying operations carried out last night by the Royal Air Force over German waters, during which one plane was lost, the Air Ministry announced.

U.S. Will Probe Normandie Fire

WASHINGTON, Feb. 18.—(AP)—Congress set in motion Wednesday two investigations to fix responsibility for the disastrous fire which swept the former French liner Normandie Feb. 9. The senate ordered an inquiry appropriating \$50,000 to conduct it, while the house of representatives naval committee voted the other, appointing a six-man sub-committee for the purpose.

Mock Invasion Features 'Peg Loan Activities

WINNIPEG, Feb. 18.—(CP)—Air raid sirens wailed and street lights went out here early today in a mock land and air invasion of Winnipeg in which active and reserve units of Military District No. 10 attempted to keep off the supposed Nazi hordes during the "I Day" program of Manitoba's Victory Loan campaign.

The "blitz" was part of a program to convince Winnipeggers that "it" can happen here and to encourage purchase of bonds in the Victory Loan drive.

Citizens were awakened at 7 a.m. with the roar of artillery and anti-aircraft fire on the outskirts of the city as bombers, flying overhead, shortly after, a communique from Col. D. S. MacKay, commanding the raiders, said his troops planned to withdraw from the second defence perimeter under cover of artillery fire, making the last stand in a one-mile circle from the city hall.

Meanwhile within the city limits preparations went forward to blow up seven city bridges over the Assiniboine and Red rivers. Earlier the demolition parties were reported to have blown up the Elm Park and St. James bridges in South Winnipeg and the West End.

The theme of "I day" is—"This must not happen here... buy Victory bonds."

British Army Parachutists Ready To Go

LONDON, Feb. 18.—(CP)—The British army has air-borne troops in training and is ready to go.

Ready now for action, Captain Lord Margesson, war secretary, announced today. He declared new armoured divisions have been formed and these in "the Middle East" reinforced.

Outfitting this broad sector of strengthened striking power, Capt. Margesson said that because of increasing shortages and the need for other type weapons already in production, the army had been unable until last fall to convert large numbers of infantry into artillery armoured divisions which we were woefully short."

Without disclosing any details of the strengthening of armoured formations in a zone he described only as "the Middle East," he was secretary declared that the reinforcement process is continuing.

HARDENED SOLDIERS

He said that in Malaya, however, British forces had been up against "hardened soldiers with four years' experience in a type of warfare with which we were totally unaccustomed."

In that ill-starred campaign, he said, there had not been time for troops to get essential preliminary training—often not time even for them to become accustomed to the equatorial jungle climate after their long sea voyage in cramped quarters.

Capt. Margesson declared the British army is training air-borne troops and already has a number of parachute and air-landing units ready for action.

This was the first official announcement that the British army is planning to use air-borne infantry like that which has served Germany and Japan.

In addition, he said, a number of new armoured divisions have been formed.

"We have practically completed formation of the required number of anti-tank regiments," he said, recording the progress of army development.

Of the situation in Libya, he said that at present the British forces "in some respects were at a disadvantage with the Germans" in tank warfare.

DENIES SUGGESTION

He referred to "the insidious and false suggestion" which he said "now finding some expression in newspapers of the United States" that Britain is "willing to accept arms and equipment from any and every source, but not willing to send our soldiers out to fight with them."

"Of every 100 men killed and wounded in the land fighting in Libya after the beginning of the war," he said, "about 70 have been killed or wounded by the enemy."

He said the sending of troops to foreign theatres must be considered in the light of first, the absolute necessity of defending this country, "an aspect from which arms are flowing to all Allied nations," and second, the availability of shipping.

Canadian Trade Commissioner At Singapore Is Safe

HAMILTON, Ont., Feb. 18.—(CP)—Lady Muller, formerly of Hamilton and recently Canadian trade commissioner at Singapore, has escaped from the fallen British naval base and reached Batavia in safety. It was reported by the parents of nearby Dindya by the department of trade and commerce at Ottawa.

Muller's name is more closely tied to goods than to cash.

At Last a WHITE FLOUR with a good proportion of the NATURAL VITAMIN B COMPLEX of wheat kept in

ALWAYS before, millers of "patent" white flour have had to sacrifice most of the vitamins concentrated in the wheat germ and bran. Now, a new "Gold Roll" Milling Process has made it possible to retain in Kitchen Craft White Flour most of the wheat germ's vitamin B complex. You'll prefer the creamy-type white color of this new vitamin B flour—especially like the delicate flavor of ripe wheat that it imparts to all your baked foods.

But most important are the nutritional benefits your family will derive from the vitamin B complex retained in this flour: not less than 377 International Units of vitamin B1 (thiamin) per pound, about five times as much as in regular "patent" flour. And also more riboflavin... more of all the other vitamins naturally present in whole wheat.

For sound nutrition's sake, stock up with this new Vitamin B Kitchen Craft White Flour today.

GUARANTEE
Milled in Canada, from best Canadian wheat, Vitamin B Kitchen Craft is our first quality all-purpose home-use flour. We GUARANTEE it will give you perfect baking results every time... and that it will keep at least two years under normal storage conditions.

NATURE PUTS INTO THE WHEAT KERNEL
THIAMIN (VITAMIN B₁)
RIBOFLAVIN
NICOTINIC ACID
AND THE OTHER MEMBERS OF THE
VITAMIN B COMPLEX OF WHEAT
GERM Highly concentrated here are Thiamin (B₁), Riboflavin, and other vitamins.

Living Bonus Discussed At Labor Meeting

... "if anybody likes to play rough, we can play rough too." Blood Donors Being Sought By Red Cross

Discussion of the cost-of-living bonus and the recent action of the Labor Party with the C.C.F. into the Alberta Farmer Labor Party (C.F.P.), was the principal business at the regular meeting of the Executive of the Workers' Association of the Labor Union Wednesday night, J. D. Miller, president of the association, presided.

The delegates spent more than an hour debating the cost-of-living bonus situation and while expressing the opinion that some adjustment between the workers and the brewery officials might be desirable, definite action in this respect was deferred pending official clarification from Ottawa of the bonus setup at the present time. No adjustment in the living bonus paid to brewery workers has been made since Nov. 15 last, the meeting was told.

DELEGATES APPEAR

Representatives of the Breweries Disputants' association who submitted a brief supported by the Trades Union Labor Council of Canada, War Prices board demanding full scale bonus for all dispenders, appeared at the meeting and outlined the bonus situation as it pertained to their union.

The discussion closed without any resolutions being passed. Jack Flowers, secretary, assured the delegates that a close watch and careful study of the bonus problem would be made and if conditions warranted, representations would be made to officials in charge, possibly in the near future.

Varied opinion on the future of the Labor and C.C.F. parties was expressed by the delegates, but Secretary Flowers, in his closing meeting, in general, approved the amalgamation. The party union, it was suggested, would be organized to better results in future political campaigns.

Soldiers' Spirit Draws Praise Famous Padre

If Canadian civilians could maintain the same spirit of patriotism that is so evident among soldiers and war veterans, victory would be much easier to achieve. Rev. Sidney Lambert, O.B.E., Chaplain of Christie Street Hospital, Toronto, stated in an interview here Thursday, he is a great admirer of the spirit of the war veterans and of the war.

Col. Lambert, a former Albertan, addressed a joint meeting of the service clubs, the Edmonton Chapter of Commerce and the Men's Canadian Club, at the Victoria Hotel last night on Thursday, on behalf of the Second Victory Loan.

He is touring Canada under the auspices of the Men's Canadian Club, having arrived from Vancouver late Wednesday.

Col. Lambert enlisted in the war of 1914-18 from Plafond, Alberta. He stated that he is a minister when he was broke out.

PROUD OF SPIRIT
He is still a member of the Calgary regiment, formerly the 10th Canadian Hussars. He said he has many boys from that battalion. "I am proud of the spirit of the boys," he said.

The outlook in the west appears to be somewhat blue at the present time, he said.

Maybe it is because of the jobs that are the boys' jobs? He said he has an air of work in the west. He said he has seen the enemy can be licked. We've done it before and we'll do it again. He said he must show as much fight and spirit of optimism as is being shown by the soldiers on the front and by the returned men."

STIFF FIGHT
The Army, for example, are having a stiff fight that are called upon to brave and they are doing it with a real spirit.

The private soldier has the biggest job in the world. We need him to be ready to give his all. Let us give all we can. We must show a real spirit of optimism otherwise we will get down and be licked," he warned.

The padre has always had a soft spot in his heart for Alberta. He was pleased to hear the fine showing in recruiting drives and of the excellent showing that the Victory Loan campaign results have shown to date.

Churchill, Ottawa, Dec. 30, 1941

Transportation Big Problem Official Says

Continued from Page Nine
The number of stops on certain routes, increasing the speed, resulting in more cases and, finally, staggering hours.

"It boils down to this—the same number of cars and buses can carry a lot more passengers if they don't want to ride at the same time," Mr. Gray said.

Slagging of hours was working well in Montreal, Ottawa, Toronto and Winnipeg, he said.

EXPECTS MORE WORKERS
Mr. Gray said he had spoken to officials at the airport repair plant here and they had assured him they would see that changes of shifts did not occur at the regular peak-load hours of the street railway. The plant expects to be increasing its output to some 2,000 in the near future. There are now 150 employees.

Gasoline rationing, which starts April 1, will put a heavy strain on public transit facilities, Mr. Gray said, as it is likely many motorists will put away their cars and travel by street car.

"The increasing shortage of rubber for tires also will increase the strain," he added. "As time goes on, much public transit equipment will be wearing out and need replacement. The source of supply for buses and street cars is strictly limited."

He stated that allocation of new equipment would be given priority from national standards and placed where the need was greatest.

"Obviously," he explained, "war industries and war essentials will have to be satisfied first. Because of this, there are certain steps that can be taken in all municipalities. The main thing to be certain that the efficiency of operation of your public transit system is as high as possible, having no traffic jams, no parking restrictions and the actual workings of the utility."

Suggesting cutting down of stops, for instance, every other stop to be closed of every block, might make people walk a little farther. "But surely no one would object very much," he said.

If a number of hours became necessary, Mr. Gray said, businesses whose activities interlock would have to arrange to do their business in hours that are at their disposal.

MANY CHANGE HOURS
In Montreal, he said, in order to carry war industry workers five days a week, employing 8,000 people, had been asked to change their store hours to 10 a.m. to 6:30 p.m. instead of 9 a.m. to 5:30 p.m.

In Ottawa, hours of some 7,000 of the 30,000 government employees have been shifted to off-peak lines. Mr. Gray spent Wednesday morning in conference with Mayor Ferguson, Commissioner R. J. Gibb and John Hodgson, City Solicitor T. E. Garfield, K.C., and Thomas, Ferrier, superintendent of the street railway.

He spent the afternoon with G. H. M. Mookman, deputy minister of public works for Alberta. Alfred Chard, chairman of the highway traffic board; K. W. Macpherson,

Additional volunteers, in particular, a provision of whole blood for use in emergency war work, were being sought by the Edmonton branch of the Canadian Red Cross Society. It was reported by Robert Muir, secretary-manager.

Mr. Muir said that taking of blood tests will be resumed next week. Two test nights a week are contemplated, with 15 persons participating each night.

Word that the Dominion headquarters of the Red Cross wished the tests continued, following a shipment to Toronto some weeks ago, has been received in Edmonton by telephone from the provincial headquarters in Calgary. Mr. Muir said five cartons of donated blood and surgical equipment were shipped by the Edmonton branch on Thursday, for England. Shipments are now leaving the city at the rate of three per day.

Mr. Muir reported acceptance of a new branch of the society in the Kenilworth-Woodland district, south of Driffield, and stated that new branches will shortly be formed at Bella, Drayton Valley and Rich Valley.

City Council Will Discuss Improvements

Continued from Page Nine
Conditions in the business and other areas: provision of sufficient playgrounds in reasonably close proximity to residential centers and equipping them adequately; a new market building, "fireproof and vermin-proof," with part of the building devoted to rental on the second floor in addition to that provided for stores on the street level; further extensions of the city power plant and of water necessary.

URGES SUBWAYS
He also advocated construction of subways under the railroad tracks in city limits and abolition of level crossings and a new power plant for the Royal Alexandra hospital, inclusive of new, up-to-date boilers and necessary equipment.

Ad. Patena urged "the revolutionizing of our system of garbage collection and disposal on a modern basis" and "a satisfactory up-to-date system of snow removal from the provision of public works." The business of public lavatories and washrooms in the downtown area, "not necessarily below the street level" also are urged.

He pointed out he had not mentioned a farmers' hall, a new electric block, a main telephone building extension and many other projects, any or all of which could be included.

The general plan, he conceived, could not be completed in a hurry nor put into operation without much advance consideration.

BIG TASK
He pointed out that it takes no stretch of the imagination "to visualize what we in Canada will be confronted with in the matter of unemployment, unrest and all the dark conditions that follow in the wake of unemployment."

"With all the war industries closing down and large numbers of men being demobilized from the service, it will take all the comprehensive planning of which this council is capable to take care of the situation."

Member of the board, and W. A. Aiken, board secretary, Mr. Mookman is on the list of the committee. Mayor Fry and Mr. Mookman said that they would give careful study to his suggestions.

The deputy transit controller left Wednesday night for Regina.

Butterick Fashion Expert

Miss Doris Duxbury, The Butterick Fashion Adviser—will be in EATON'S Fabric Section—Friday, February 19th. Consult with Miss Duxbury on your fashion problems.
